

PROGRAM

MTM SUMMIT 2026

APRIL 22-23, 2026
BERLIN & ONLINE

Dear MTM Community,

This year, everything revolves around the profound changes brought about by digital technologies and artificial intelligence (AI). AI is currently on everyone's lips – and we'll be demonstrating live how it's revolutionizing industrial engineering, productivity, and modern production systems.

Experience inspiring keynotes, practical sessions, and exciting insights into intelligent MTM solutions, the One MTM network, and our trade exhibition showcasing the latest innovations from industry and technology. And don't forget our TiConaut®. A particular highlight is the MTMmotion® Experience Hub – an interactive area for experiencing, trying out, and discovering cutting-edge AI applications from our technology partners.

Take advantage of this opportunity for networking, exchanging ideas within the MTM community, and gaining new inspiration for your business. The event culminates in our Gala Dinner, where we celebrate successes, strengthen relationships, and look ahead together.

Look forward to two days full of innovation, inspiration, and networking – a SUMMIT that moves and shapes the future.

Thank you.

Our dinner speaker will provide exclusive insights into the future of the industry, while magical highlights and surprising show acts will create moments of wonder.

Celebrate successes, streng then connections, and bring the SUMMIT to a stylish close together – an evening full of magic, inspiration, and unforgettable encounters.

**Stralauer Allee 2,
10245 Berlin**

The image shows a stylized map of Berlin, Germany, with a red location pin. The map features a grid of streets, a prominent blue river (the Spree), and a large blue area representing a lake or reservoir. The location pin is positioned in the upper left quadrant of the map, pointing to a specific street intersection. The text inside the pin reads "Stralauer Allee 2, 10245 Berlin".
